

DO SOME OF THE FAMILIES YOU SERVE NEED FUNDS TO FINANCE A FUNERAL?

- ◆ Family members may prefer to spread funeral costs over time, eliminating the pressure of paying a lump sum of money from personal savings that might be allocated for other expenses or emergencies.
- ◆ This funding option also allows families to provide a more meaningful memorialization rather than be forced to go the more cost effective route because funds are not readily available at their time of need.
- ◆ We help to inspire families to provide a funeral service that is meaningful and not necessarily always determined by price.
- ◆ Providing a funeral funding option for those in need, assures the funeral director immediate and full payment for the valued services their funeral home performs.
